Webinar ID: 819 9756 0836

The Riverside LAFCO Commission has contracted with Dopudja & Wells and FG Solutions as consultants to assist LAFCO staff and the affected water agencies to finalize this special study. The affected local agencies include the City of Murrieta, Eastern Municipal Water District, Rancho California Water District and Western Municipal Water District.

The primary driver of the study is to analyze the infrastructure, supply capacity and financial needs for providing water service to the area and how best to provide that service in the most efficient and cost-effective manner.

The purpose of the meeting will be to present the results of the study and take additional comments. If you have any questions in advance of the meeting, please contact our office at 951.369.0631 or visit <https://lafco.org>.
